

Intent

Our curriculum has been designed to provide our learners with full, rich and varied experiences that meet the needs of every child. We:

- Provide an environment where children are stimulated, secure, happy and valued as individuals so they become independent and compassionate with a desire to learn and achieve
- Deliver a curriculum to inspire wonder, excitement and awe in the world around us which leads to creative, collaborative and communicative learners
- Encourage children to develop a knowledge of the cultural difference that exists in the world
- Develop the spiritual awareness of our children and community and give the children the opportunity to learn to value cultural variety

As each has received a gift, use it to serve one another, as good stewards of God's varied grace
1 Peter 4:10

Impact

Our children will have a set of skills that they can confidently use to ensure they can access their next stage of learning; a developing knowledge of our world, how it works and its history; self confidence as a learner and a member of a community with Christian values

TACOLNESTON CURRICULUM

Implementation

Through quality teaching of knowledge, skills and vocabulary across core and foundation subjects, all children are challenged to be creators, collaborators, communicators and critical thinkers. Our outcomes are designed to not only meet the needs of the National Curriculum but also to develop the skills needed for learning and for life.

Our rich curriculum is designed so that subject specific skills are progressive through the year groups and are then part of a cross curricular theme each term. Progression documents for each subject ensure that the children are building on skills and knowledge year on year
