

Dear Robins

It has been great to see so many of you in the Robins Google classroom and to see how you are all being innovative and creative with your time at home, safe with your families. All of your VE day celebrations looked fantastic and I have continued to be amazed by the caterpillars and can't wait to hopefully see some butterflies soon. Mrs Cheese :)

Hello again. We have made contact with most of the class now and are pleased to hear how well everyone is doing with their home learning. You have some great ideas of other activities we could try and we keep adding these to our fortnightly challenges. I have enjoyed going to Morley to look after the few children that are needing to attend school at the moment. We have really loved the sunshine and it makes us all feel so much more cheerful. Stay safe and happy:-) Mrs Ketley

We hope you have enjoyed choosing activities from the bingo grids and creating your own learning while you have been staying safe at home. It is almost half term and you have been working really hard, so this week we have shared a few more useful activities and ideas for you to continue your learning, but feel there are still plenty to keep you busy on the two previous sets of bingo challenge grids. You can find these on google classroom in the classwork tab WB 20.4 and WB 4.5

Remember, don't worry if you haven't completed them all, remember you can pick and choose the activities that feel right for you and spread the activities out across the week and half term. We will then post some more bingo challenge grids after half term on 1.6.20

We would love to continue to see your learning, so please post comments, images or videos on the google classroom stream or send us an email. Robins Team xx
