

Home Learning

Class: Eagles

Week Beginning: 14th September 2020

Please see below a range of activities for this week that you can complete at home. Please do feel free to scan in any work that you do and we can print it off to display in the classroom.

English

Start learning the spellings for your year group for this week. These can all be found on the class website page. Make sure you know what each of the words that you learn means. Try writing them in a sentence.

Complete work on 'The King of the Fishes' – see separate document

Reading – make sure you read at least three times a week but ideally more.

Maths

Place Value

- Have a go at completing 'The Place Value Mystery of the Thief at Gideon Gold's Chocolate Factory'. There is a different one for each year group.
- Using a dice (or number cards 0-9), generate three digits and see what the largest / smallest numbers are that you can make. Can you read and write these in words?
 - Practise a times table that you lack confidence with.
 - Place TTRS
- Look at place value activities on Top Marks maths

Page Two

Science

Rocks and Soils

Design a title page for our topic this half-term 'Rocks and Soils'.

Can you find out an interesting fact about rocks?

Begin making a list of all the different places that we can find rocks and where we use rocks.

RE

What does harvest mean to you?

Produce an informative poster to explain to a younger child what harvest is.

Write your own prayer for the harvest season.

Art

Drawing 3D bubbles

This term (at least) we all need to keep in our bubbles in school as well as at home.

Have a go at following this tutorial to create some amazing 3D bubble pictures.

Week Beginning: 14th September 2020

Page Three

PE

Practise a bouncing and catching a tennis ball in a small space like we practise in lesson last week. How high can you bounce it within your circle? Can you run around your circle before the ball bounces a second time?

Try making the circle larger.

Try with a different type of ball. How many times can you bounce the ball on the ground and catch it after only one bounce?

Be as active as you can in your garden.

Don't forget, there are plenty of online videos you can also follow for workout style exercises.

PSHE

Super Powers

You all did a super job with your home learning and being away from school for so long and I am sure that you all know someone who has been super during lockdown. NHS, keyworkers, your parents...

The question is, if you could have just one super power, what would it be?

- 1) Explain what power you would choose and why.
- 2) Optional – Draw yourself as a superhero

ICT

Continue working on Scratch

Make a Power Point about a topic of your choice
